Rick

Please add the following BMP to the Form 2A:

Operator will participate in the Colorado Oil & Gas Association Voluntary Baseline Groundwater Quality Sampling Program.

Thanks

Jan

Subject: RE: Castor Federal LG 17-62HN Form 2A 400323575

Jan

COGCC is placing conditions of approval on permits to require baseline water quality sampling in areas with previously limited oil and gas development. For operators that either participate in the COGA program, or have their own program, a BMP stating participation in COGA or describing their own program can substitute COGCC placing the COA.

See the Bethyl GW29-13 Pad Form 2A 400296237 as an example where Noble agreed to participate in the COGA program.

Rick

Rick,

I guess I'm confused, why? We haven't had to provide this information before.

Thanks

Jan

OK – can you provide a BMP for Noble’s BWQ program that describes: which water sources (wells, springs, surface water) are targeted for sampling, which constituents are the water samples analyzed for, the frequency of sampling (baseline, any post completion sampling?), and whether results are reported to COGCC?

Thanks
Rick

Rick,

No, Noble is not participating in the COGA Baseline Water Sampling Program. Noble has their own BWQ program.

Thanks
Jan

Jan,

I am reviewing the subject Form 2A. Is Noble participating in the COGA Baseline Water Sampling Program in this area? If so, please add the following BMP to the Form 2A:

Operator participates in the Colorado Oil & Gas Association Voluntary Baseline Groundwater Quality Sampling Program.

Thank you

Rick
