

Cross

June 19, 1952

MEMO to Mr. Downing
Mr. Bretschneider
Mr. Volk
Mr. Barb
Mr. Cronin

Attached hereto is a copy of an application from the Sinclair Oil and Gas Company for establishing 20-acre drilling and spacing units in the West Padroni Field, Logan County, Colorado.

I would greatly appreciate it if the Commissioners would indicate when they will be in town so that a hearing date can be set.

You will recall that there has already been issued an Order, No. 7-1, for spacing in the Muddy or "J" Sand, in the West Padroni Field, effective April 15, 1952. The new application has to do with the underlying Dakota Sand. The spacing for the Dakota Sand coincides with the spacing in the Muddy or "J" Sand, which indicates that the Sinclair proposes to have dual completions, or conduct deepening operations after the Muddy or "J" Sand zone has been completed.

Director.
