### Davis Ditch Pipeline Release - SWSE Sec 3, T7S, R92W - Garfield County - Facility ID #429326

Ms. Friesen and Mr. Jensen,

I am assisting Alex Fischer on outstanding NOAVs for Encana. The NOAV and associated unresolved issues for the spill at the Davis Ditch facility referenced above have been approved or closed, as applicable:

- Spill Tracking #2229347 was closed with Form 19a (Document #200372466);
- Remediation Project #7129/Form 27 #2229490 was closed with Form 27a (Document #200372464);
- Complaint #200353851 was closed with Form 18a (Document #200372467);
- Sundry Form 4 (Document #1949128) was approved 12/18/2012 (copy attached); and
- NOAV #200355205 was closed by signature approval on 12/17/2012 (copy attached).

Based on our review of the information presented, it appears that no further action is necessary at this time. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards, or if ground water is found to be significantly impacted, further investigation and/or remediation activities may be required at the site. Please retain a copy of this email as verification of No Further Action (NFA) required for this release.

Thank you,

**Ann Clements Eckman, P.G. for**

Hi Alex

Sorry you're unable to make the call on Thursday. We can re-schedule at your convenience, or do you have any additional updates you can provide us? What's remains outstanding includes:

J13W Form 27/Investigation close out

Davis Ditch NOAV closure

Moon Property/P3 Pad NOAV closure

Charlie – anything else I'm forgetting?
