NOTICE OF HEARING

BEFORE THE OIL AND GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO

CAUSE NO. 26

IN THE MATTER OF THE PROMULGATION OF FIELD RULES TO GOVERN THE SPACING AND DENSITY OF OIL AND GAS WELLS IN THE ADENA FIELD, MORGAN COUNTY, COLORADO. TO ALL INTERESTED PERSONS AND TO WHOM IT MAY CONCERN:

NOTICE IS HEREBY GIVEN, that The Oil and Gas Conservation Commission of the State of Colorado, upon its own motion, has set the above entitled matter down for hearing on:

DATE: Tuesday, October 25, 1955

TIME: 10:00 a.m.

PLACE: Room 243, State Capitol, Denver, Colorado

The Commission has heretofore issued its Order No. 26-22, which extended the provisions of Order No. 26-21 for a period of two months, beginning September 1, 1955.

All operators and owners of working interests, and all persons interested in the said field, are hereby required to appear at the hearing as set forth above, and to show cause, if any they have, why the Commission should not issue an order continuing the provisions of Order No. 26-21 and extended by Order No. 26-22, or an order similar thereto, with the following proposed amendments:

(a) "Rule 2. That, in order to prevent undue waste of oil and gas, and to prevent the escaping, blowing, and releasing of gas in an excessive or unreasonable amount from wells producing both oil and gas; and to prevent underground waste, inefficient, excessive and improper use and dissipation of reservoir energy, the maximum 'D' and 'J' sand production from any one forty (40) acre tract located in the Adena Field shall not, during any one month, exceed a daily average of One Hundred Twenty-five (125) barrels of oil, with a penalty gas-oil ratio of 1200 to 1; and that when any well reaches a gas-oil ratio of 15,000 to 1, such well shall be shut in pending installation of gas gathering facilities; and that on completion of such facilities, the maximum production of gas from any one forty (40) acre tract shall not, during any one (1) month, exceed a daily average of One Hundred Fifty Thousand (150,000) cubic feet of gas; and that no one well shall produce during any twenty-four (24) hour period more than twice its daily allowable; and that the allowable production may be exceeded for any one month by not in excess of three (3) days' allowable production, provided that any such excess production shall be deducted in producing the next month's allowable; and that any under production may be produced only during the month immediately following that in which the under production occurred."

(b) "Rule 3. That the operators and owners of wells producing from the 'D' or 'J' sand pools of the Dakota Series of the Adena Field shall make a gas-oil ratio test of each of his producing wells during every quarter, beginning with the months of January, April, July and October; and that such tests shall not be taken within fifteen (15) days of the beginning or ending of each quarter, the results of which such tests shall be reported to the Commission on or before the fifteenth (15th) day of the last month of every quarter; and that such tests shall be the basis for calculating the oil allowable for each month of the following quarter; that, immediately prior to making the test for a gas-oil ratio, subject well shall be produced at its normal rate of production for at least twenty-four (24) hours; and that during such tests, subject well shall be produced at a volume equal to or not exceeding its daily allowable by more than twenty-five (25) percent; and that a schedule shall be submitted to the Commission and to offset operators prior to testing, showing the wells and respective dates of tests; and that the volume of gas measured shall be reported in units of cubic feet at a base pressure of 15.025 psia, and a base temperature of 60° Fahrenheit.

Pursuant to said hearing in the above entitled matter, at the time and place aforesaid, or at any adjourned meeting, the Commission will enter such orders as it deems appropriate to prevent the waste of oil and gas, either or both, in the operation of said field.
