To: "Allison - DNR, Rick" <rick.allison@state.co.us>

Rick,

I am ok with all listed below and acknowledge the COA. The production facility is on a combination tank battery for two different wells – the doc number is 400364999 for this pad and the NWSE pad.

Thanks,

Shannon

Subject: New Cache FH NWSW 8-12D Form 2A 400365000

Shannon,

I am reviewing the Form 2A location assessment for the New Cache FH NWSW Pad 8-12D. Please address the following comments:

1. I changed the Sensitive Area Designation to Yes due to shallow ground water and the proximity of the location to the North Side Lateral.
2. Please provide information from regarding the location of the production facility for this well pad.
3. Conditions of Approval: Please acknowledge the following condition of approval due to the proximity of the location to surface water: "Location is in a sensitive area because of close proximity to surface water, therefore, operator must ensure 110 percent secondary containment for any volume of fluids contained at well site during drilling and completion operations."

Contact me with any questions regarding this Form 2A.

Rick Allison, P.G.
