On December 19, 1983, the Commission authorized Order No. 407-1 to be issued which, among other things, established 80 acre drilling and spacing units for the production of oil and/or gas from the Codell formation underlying certain lands in Adams, Boulder, Jefferson, Larimer and Weld Counties, Colorado. The units consist of the W $\frac{1}{2}$  and E $\frac{1}{2}$  or the N $\frac{1}{2}$  and S $\frac{1}{2}$  of a governmental quarter section with the permitted well located in the center of a quarter-quarter section with a tolerance of 200 feet with the option to drill an additional well in the undrilled 40 acre tract.

On November 2, 1984, C F & C Energy Resources, by its attorneys, filed with the Commission a verified application for an order establishing 80 acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Niobrara formation underlying the following described lands in Weld County, Colorado, to wit:

and further that the drilling and spacing units and permitted well and existing well locations be in accordance with the provisions of Order No. 407-1.

It is further requested that all wells drilled, or to be drilled on the above described area be authorized for dual completion as to both oil and gas in both or either the Codell and Niobrara formations, and where there is no difference in ownership between said formations, authorized for downhole commingling of production.
