Dear Mr. Hines,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the Notice of Completion Report submitted by Encana on February 15, 2013, for the referenced site. Based on review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation project has been closed in COGCC database, and the pit status has been changed to CL (Closed). If you require any additional information, please call me at (970) 625-2497.

Sincerely,
