Dave,

SG Interests approves an extension to the Form 2A review period for the Federal 8-89-7 #1 (Garfield County) and Federal 8-89-31 #1 (Pitkin County) locations. This extension presumes the Bureau of Land Management will suspend the primary term of the leases. This extension is until July 15, 2013 in order to allow Colorado Parks and Wildlife to perform a site visit to each location on July 1st and prepare and submit their comments following that visit. July 1, 2013 is the rescheduled onsite date with the USDA Forest Service and SG Interests for these well locations. Thank you.
Catherine
