Insofar only as said above described lands cover the oil and gas rights from the surface to a depth of two thousand (2,000) feet below the surface, and providing also that the Juhan Ranch property has the first right to gas out of the presently drilled and existing gas wells for ranch use, including the right to pump water with gas.

any taxes, mortgages, or other liens existing, levied or assessed on or against the above described lands and, in event it exercises such option, it shall be obligated to the rights of any holder or holders thereof and may reimburse itself by applying to the balance of any such mortgage, tax or other lien, any royalty or rentals accruing hereunder.

11. Notwithstanding anything in this lease contained to the contrary, it is expressly agreed that if lessee shall commence drilling operations at any time while this lease is in force, this lease shall remain in force and its term shall continue so long as such operations are prosecuted and, if production results therefrom, then as long as production continues.

12. If within the primary term of this lease production on the leased premises shall cease from any cause, this lease shall not terminate provided operations for the drilling of a well shall be commenced before or on the next ensuing rental paying date, or, provided, lessor begins or resumes the payment of rentals in the manner and amount hereinbefore provided. If, after the expiration of the primary term of this lease, production on the leased premises shall cease from any cause, this lease shall not terminate, provided lessor resumes operations for drilling a well within sixty (60) days from such cessation, and this lease shall remain in force during the prosecution of such operations and, if production results therefrom, then as long as production continues.

13. Lessee may, at any time and from time to time, surrender this lease as to any part or parts of the leased premises by delivering or mailing a release thereof to the lessor, or by placing a release thereof on record in the proper county.

14. This lease and all its terms, conditions, and stipulations shall extend to and be binding on all successors of said lessor or lessee.

15. This lease shall not be terminated, in whole or in part, nor shall lessor be held liable in damages for failure to comply with the express or implied covenants hereof, if compliance therewith is prevented, or, if such failure is the result of, any Federal or State laws, executive orders, rules, or regulations, if, at the end of the primary term hereof, such term has not been extended by production or drilling as in this lease, provided, lessor's lease, by reason of any of the above causes, is unable to drill a well on the leased premises for oil or gas; the primary term and any rental provision hereof shall, except as automatically, from year to year, until the first anniversary hereof occurring ninety (90) or more days following the renewal of such drilling cause. During any period that lessor is unable to produce and/or market any products from the leased premises by reason of any of the above recited cause, this lease shall remain in full force and effect.

16. Lessee is hereby given the right, at its option, at any time and from time to time, to pool or unitize all or any part or parts of the above described land with other land, leases, or leases in the immediate vicinity thereof, such pooling to be into units not exceeding the minimum size tract on which a well may be drilled under laws, rules, or regulations in force at the time of such pooling, or unitization; provided, however, that such units may exceed such minimum by not more than ten acres. If such pooling or unitization is made, lessee shall endeavor to conform to ownership subdivisions or leases. Lessee shall exercise such option, as to each desired unit, by executing and recording an instrument identifying the unitized area. Any well drilled or operations conducted on any part of such unit shall be considered as being drilled or operations conducted under this lease, and there shall be allocated to the portion of the above described land included in such unit such proportion of the actual production from all wells on such unit as lessor's interest, if any, in such portion computed on an acreage basis, bears to the entire acreage of such unit. And it is understood and agreed that the production so allocated shall be considered for all purposes, including the payment or delivery of royalty, to be the entire production from the portion of the above described land included in such unit in the same manner as though produced from the above described land under the terms of this lease.
