Dear Mr. Matt Lepore,

Bayswater Exploration & Production, LLC (Bayswater), is planning to drill the above mentioned wells to the Codell/Niobrara formations.

The surface locations of Bayswater's proposed wells have been staked outside of the 318A.a GWA drilling window. The locations are being permitted as exception locations. Bayswater has obtained written permission contained in a waiver from the surface owner.

Under the COGCC Rule 318A.c any new twinning well is to be located within fifty (50) feet of an existing well. Bayswater is requesting the surface well locations greater than fifty (50) feet from a well. Bayswater has obtained permission, contained in the form of a waiver, from the surface owner.

Bayswater requests that the COGCC review the enclosed information and approve the requested exception location waivers and Application for Permit to Drill for the above captioned wells.

Respectfully,

A handwritten signature in blue ink that reads "Jennifer Angel-Lear". The signature is fluid and cursive, with the first name being the most prominent.
