Jacob –

I have reviewed the recent remediation status report and request for No Further Action (NFA) for the Colorado Oil and Gas Conservation Commission (COGCC) remediation number 7640. Based on the information provided, the COGCC staff agrees with the request for NFA. However, if future conditions at the site discover contamination concentrations exceeding COGCC standards, then Noble may be required to conduct further investigation and/or remediation at the site.

Should you have any questions, please call me at (303) 894-2100 ext.5112.

Respectfully,

Robert H. Chesson, PG, CPG
