The Daily Journal is a daily news-
paper within the meaning of the act
of the General Assembly of the State
of Colorado, approved April 7, 1921
and entitled "An Act Concerning
Legal Notices, Advertisements and
Publications, and the Fees of Print-
ers and Publishers Thereof, and to
Repeal All Acts and Parts of Acts in
Conflict with the Provisions of This
Act" and as amended by an act of
said General Assembly, entitled, "An
Act to Amend An Act Entitled 'An
Act Concerning Legal Notices, Ad-
vertisements and Publications and
the Fees of Printers and Publishers
Thereof and to Repeal All Acts and
Parts of Acts in conflict with the
Provisions of this Act,'" approved
March 30, 1923, and as amended by
an act of said General Assembly ap-
proved May 18, 1931 entitled "An Act
To Amend Section 4 of Chapter 139,
Session Laws of Colorado, 1923, Re-

Cause NO. 33

NOTICE OF HEARING BEFORE THE OIL AND GAS CON- SERVATION COMMISSION OF THE STATE OF COLORADO

Cause No. 33

IN THE MATTER OF THE INVE-
STIGATION TO TAKE MEASURES
TO PREVENT WASTE OF OIL
AND GAS IN THE "D" AND "J"
SANDS OF THE ADENA-SOUTH
FIELD IN MORGAN AND ADAMS
COUNTIES, COLORADO.

TO ALL INTERESTED PERSONS
AND TO WHOM IT MAY CON-
CERN:

NOTICE IS HEREBY GIVEN, that
the Oil and Gas Conservation Com-
mission of the State of Colorado,
upon its own motion, has set the
above-entitled matter down for
hearing on:

DATE: Thursday, July 29, 1954

TIME: 10:00 A.M.

PLACE: 704 State Capitol Annex,
14th Ave. and Sherman
Street, Denver, Colorado

The Oil and Gas Conservation
Commission of the State of Colorado
has instituted this proceeding to
take measures to prevent the waste
of oil and gas in the "D" and "J"
sands in the Adena-South Field in
the State of Colorado, and all oper-
ators and owners of working inter-
ests, and all persons interested in
the said field, are hereby required
to appear at the hearing as set forth
above, and to show cause, if any
they have, why the Commission
should not enter all appropriate
orders to prevent the current waste
of oil and gas in the operation of
said field; and, in particular, why
the Commission should not enter
an order fixing a gas-oil ratio ap-
propriate for said field; or why an
order should not be entered reducing
the daily production from the field
in order to reduce the rate of reser-
voir pressure drop; or why an order
should not be entered requiring that
there be determined the amount of
oil each well in the field can produce
without waste, in accordance with
sound engineering practices; or why
such other orders or combinations
of orders should not be made to pre-
vent the present waste in the oper-
ation of the said field.

All operators and owners of work-
ing interest, and all persons inter-
ested in said field, are hereby re-
quired to present to the Commission
the following engineering data for
both the "D" and "J" sands reser-
voirs:

1. Physical properties of the reser-
voir, including the average poros-
ity, permeability, and oil and inter-
stitial water saturations.
2. Structural features of the reser-
voir, including dip of producing
zone, cross sections, water-oil and
gas-oil contacts, ratio of gas-cap
volume to oil zone volume, net effec-
tive oil pay thickness, and structure
maps.
3. Characteristics of the reservoir
fluids.
4. Reservoir pressures and tem-
peratures including isobaric maps.
5. Statistical data, including pro-
duction of oil, water, and gas; vol-
ume of gas flared or vented; decline
curves; gas-oil ratios; number of
wells and status thereof; comple-
tion methods; proven oil acreage,
both developed and undeveloped; de-
pletion rate of reservoir; rate of
water encroachment; water and gas
coning, and gas-oil ratio and water
percentage maps.
6. General reservoir mechanics,
including rate and effectiveness of
gas-cap expansion drive and water
drive; effectiveness of segregation
or gravity drive, and material bal-
ance calculations.

Recommendations to the Commis-
sion, and reasons therefor.

It is suggested that operators con-
fer with each other so that such data
as is hereby sought may be available
and presented with respect to the
reservoirs as a whole, rather than
with respect to particular leases pro-
ducing therefrom.

It is further suggested that one
operator in each reservoir be ap-
pointed to submit such reservoir
data.
