Subject: Noble Energy - NCLP PC AA 06-66-1HN Form 2A 400349557

---

Jan,

Please approve the following conditions of approval for the subject location:

1. Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the playa located adjacent and northwest of the oil and gas location from a release of drilling, completion, produced fluids, and chemical products.
2. The operator must implement best management practices to contain any unintentional release of fluids from the pipelines used to convey fluids from the satellite pad to the well pad.

Regards,

Rick Allison, P.G.
