**Subject:** RE: Proposed Oil and Gas Activity

Dear Ms. Schnabel,

The permit is currently on hold. However, please be advised that the application for permit to drill (APD) is actually for the "re-completion" of a well that already exists at the location.

The leakage into the Platte or Sand Creek that has been in the news recently is from the Suncor Refinery and not an oil and gas well.

I am also forwarding your email to our permitting group as they are the people within the COGCC that handle public comment on APDs.

**Subject:** Proposed Oil and Gas Activity

I am very concerned about the permit COGCC has pending for oil and gas exploration (Nauman 1-14) near our home on E. 146th Pl. It concerns me that it is so close to a large neighborhood filled with children as well as being near the Platte River. The recent news stories of leakage into the S. Platte is still fresh and I do not think appropriate safety precautions are in place. The other problem is fracking, which can cause extreme problems with the environment.

These are my concerns and I am against this proposal occurring so close to my home.

Sincerely,

Heidi Schnabel
