I spoke with Ryan and he said we will not have a pit at this location. We will use the Hemberger pit. Please remove pit from 2A.

Tina,

I understand that including the pits on all locations has been the standard process, and usually is acceptable, but I have to review the location as if the pit will be constructed. At the Bailey location, the pit appears to encroach on a small playa. Therefore, we need to have a further discussion about mitigating that encroachment - or if the location will use water from the Hemberger pit, then a pit at the Bailey may not be required, thus avoiding filling a portion of the playa.

Rick

Rick,

Ryan has me permit all wells with a pit even if we don't build one. Is that acceptable?
