Subject: Fiscus and Castor Federal Locations - Sec15 9N 58W

---

Susan and Liz,

I am reviewing the four Form 2A location assessments for the Fiscus Federal and Castor Federal well locations and production facility located in Section 15, T9N R58W. I have made the following changes:

1. Changed the Sensitive Area designation to Yes on all four Form 2As - the locations are in a Sensitive Area due to the potential presence of shallow groundwater.
2. Form 2A 400394735 Fiscus Federal LD15-77HN: Changed the distance to surface water from 1298 feet to 2750 feet (drainage to the southeast). The low area that will be filled by construction of the production facility is not considered surface water.
3. Form 2A 400398568 Castor Federal 15-75HN Pad: Changed the distance to surface water from 1015 feet to 1850 feet (drainage to the south). The low area that will be filled by construction of the production facility is not considered surface water.

Please contact me with any questions about these changes.

Regards,

Rick Allison, P.G.
