Ms. Combs,

My previous email listed the incorrect Project Remediation number; **please refer to Remediation number 7758** (and disregard the reference to number 7315) when submitting updates for this project.

Thank you,

Annie Clements Eckman, PG

**Hunt 2-24 API 05-121-10304 Facility #237801**

COGCC has received your Form 27 Site Investigation and Remediation Plan for the above referenced location. The Form has been approved with the following conditions (COAs):

1. Provide GPS coordinates for the skim pit and both of the production pits at this lease, and pit permits for both production pits;
2. Provide depth and dimensions of excavations, and sample depths;
3. Per inspections resulting in violations (documents #663300764, 663300765, and 663300766), include documentation of appropriate disposal or treatment of all oily soil in accordance with Rule 907e; and,

Refer to **Remediation Project #7315** number on future correspondence.

Please move forward with this Remediation Plan in a timely manner. Call John Axelson with any questions.

Thank you,

Gentlemen: I have attached the information for the reclamation of our Hunt Lease in Washington County, Colorado. I have also attached scanned jpeg files of the Consultant's drawing and the Exhibit "A" attached to the Surface Use Agreement as the pdf file does not allow for clarity when we scan pictures. Please review these items and I will wait to hear from you as to how we proceed. Thanks again for all of your help.

Mary F. Combs
