Liz,

I have completed my review of the referenced Form 2A and have a change request.

The Comments section of the Form 2A includes the statement that Noble will participate in the COGCC voluntary baseline groundwater sampling program. I think you meant COGA and not the COGCC as the Commission does not have a voluntary baseline groundwater sampling program.

That being stated, as of May 1, 2013, groundwater testing must be in accordance with COGCC Rule 609. Therefore I will remove the groundwater sampling statement in the Comments section with your approval.

If you have any questions, please feel free to contact me. Thank you.
