Arlen,

The surface owner, Mary Gardiner, notified me on June 10, 2013, that all drilling mud and cuttings had been spread on the ranch roads as detailed in the waste management plan submitted via Sundry Notice Form 4, document #1761387. They had previously provided sampling/analysis results that verified the material complied with COGCC Table 910-1 standards. COGCC requires no additional information and no further action is required in regard to this matter.

Thank you,

John Axelson, P.G.
