RE: Behring #1; API 05-123-05198

Dear Mr. Horner:

The Colorado Oil and Gas Conservation Commission (COGCC) Staff is issuing a Notice of Alleged Violation (NOAV) dated June 20, 2013 for the above-referenced well. COGCC contacted Industrial Gas Services on June 14 and June 17, 2013 via telephone to discuss violations discovered during a routine inspection, particularly the storage of oil in an unlined earthen pit. In addition, COGCC Staff issued an electronic inspection on June 18, 2013.

Per our conversation, the oil must be removed from the pit within 24 hours. The remaining violations should be addressed in accordance with the attached NOAV.

When your corrective actions are complete, fill out the "TO BE COMPLETED BY OPERATOR" section on the NOAV and return it to my attention.

Please let me know if you have any questions and thank you for your prompt attention to this matter.

Sincerely,

Rick Allison
