

### Geologist Information

General: Existing location, 4 new wells (4 existing wells)  
 Ownership: Fee Surface, Split Minerals  
 SUA Status: Have SUA  
 Spacing Units: 3 spacing units  
 Adjacent Owners: BLM, CDOT, Smallwood and Wright

### Plan of Development

**Access:** Use existing access (modified). Proposed road shown will be constructed to the proposed SG 23 -22 pad.  
**Drilling:** Efficiency Rig  
**Cuttings:** Cuttings will be managed on the surface on the northern corner of pad with excess being hauled to the SG Cutting Trench.  
**SIMOPS:** No  
**Completions:** Will frac on pad once rig leaves location. A 10" surface poly water supply line will be installed from the pad to the existing water pipeline infrastructure in the main road. Water will be supplied from the SG completions pit.  
**Flowback:** On pad  
**Production:** Production equipment to be placed on north east edge of pad after rig leaves location.  
**Pipeline:** No new pipelines are required.
