Re: Centralized E&P Waste Management Facility Annual Report Addendum
Facility ID #426582
Encana Oil and Gas (USA) Inc. NPR Solidification Facility

Dear Mr. Fisher:

Rule Engineering, LLC is submitting an addendum to the 2012 Annual Report for the above referenced facility on behalf of Encana Oil and Gas (USA), Inc. (Encana) for the North Parachute Ranch (NPR) Solidification Facility (NSF). This addendum is submitted to the Colorado Oil and Gas Conservation Commission (COGCC) in response to comments provided regarding the Annual report in an email dated April 15, 2013.

There were no spills or upsets at the NSF from the time operations began through the end of 2012.

Surface water and groundwater monitoring are conducted on a regular basis at the locations identified in the Form 28 application for this facility. Monitoring by Encana during 2012 included:

MW7- Dry on all dates checked 3/6/12, 5/3/12, 8/27/12 and 11/14/12

MW8- 3/6/12, 5/3/12, 8/27/12, Dry 11/14/12

MW9- 3/6/12, 5/3/12, 8/27/12, 11/14/12

14ST- 3/6/12, 5/23/12, 8/27/12, 11/14/12

15ST- 3/21/12, 5/31/12, 9/7/12, 11/14/12

26ST- Dry on all dates checked 3/21/12, 5/31/12, 8/27/12, 11/14/12

There were no significant changes observed and no petroleum hydrocarbons were detected in the samples collected.

Samples of waste were collected to comply with the APEN for this facility with the Colorado Department of Public Health and Environment (CDPHE) to estimate air emissions from this facility. Data is under review and a copy of the data and emissions estimate will be provided to the COGCC when they are submitted to the CDPHE.
