Dear Mr. Lepore,

Bayswater Exploration & Production, LLC (Bayswater) is planning to drill the captioned wells at the location referenced above. The wells are being proposed to a depth of 2,500 feet or greater and are being permitted less than six hundred (600) feet from the nearest lease line. Bayswater has obtained written permission from the mineral owner by way of a signed waiver for an exception to COGCC Rule 318.a.

Bayswater respectfully requests that the COGCC review the signed waiver and approve the requested exception locations and Applications for Permit to Drill for the referenced wells.

If you should have any questions or require additional information, please do not hesitate contacting me. Many thanks for your attention to this matter.

Respectfully,

A handwritten signature in blue ink, appearing to read "ALS", is written over a light blue horizontal line.
