## COMMENTS:

COGCC Spill # 2223617, Remediation #7715

Attached with this Form 4 submittal are the analytical laboratory reports for the MV 25-17 Treatment Area #1 batch 5, Treatment Area #2 batch 6, and Treatment Area #2 batch 7 confirmation samples.

Treatment area samples were collected in accordance with the approved Soils Management Plan (COGCC document #2232630).

Treatment Area #1 Batch 5 sampling:

Note that the as-built Treatment Area #1 consists of 8 active cells and not 12 as originally anticipated when the Soils Management Plan was submitted to COGCC (COGCC document #2232630).

Two grab samples were collected from the middle of sample grids number 1-1 and number 1-8 (25% of overall treatment area) in Treatment Area 1, and analyzed for BTEX, PAHs, and TPH. All constituents tested below the COGCC 910-1 requirements.

Treatment Area #2 Batch 6 sampling:

Note that Treatment Area #2 consists of 12 treatment cells however not all the cells are active. Currently there are 7 active cells in that area (5 on the north end and 2 on the south end) which, in accordance with the Plan, requires collecting of two grab samples. Because the 7 active cells are separated between the north and south ends, WPX collected an extra sample to ensure compliance with the 25% requirement on each end.

One grab sample was collected from the middle of sample grid number 2-11 (40% of overall treatment area), located in Treatment Area 2 (south) and analyzed for BTEX, PAHs, and TPH. All constituents tested below the COGCC 910-1 requirements.

Treatment Area #2 Batch 7 sampling:

Two grab samples were collected from the middle of sample grid number 2-3 and number 2-4 (40% of overall treatment area) in Treatment Area 2 (north) and analyzed for BTEX, PAHs, and TPH. All constituents tested below the COGCC 910-1 requirements.

Based on these results, WPX Energy requests COGCC's permission to return the material from Treatment area #1 and Treatment area #2 for the purpose of reclamation of the excavation.

## H2S REPORTING

**Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.**

**Gas Analysis Report must be attached.**
