The nearest water well to location is Permit #242234- -, located (SWSE) Sec 6-T7N-R80W, approximately 2259' northwest from location. The well pumped at 15 gpm with a static water level of 2'. There is no elevation listed for this well, but topographic maps show it as approximately 17' below location. Correcting for this difference results in an estimate of 19' to groundwater at location. This has been reported above. Location has been marked as a "sensitive area" due to proximity to surface waters and depth to groundwater. This battery facility is being moved from Facility ID 413754 approximately 1649' northwest from this this 2A.
