Dear Ms. Jillson:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations noted (see attached Well Location Certificate). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC) Rule 318A(I), known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). Rule 318A(I).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The JILLSON-EAST RINN 3A-22H-M268 thru JILLSON-EAST RINN 3D-22H-M268 wells were staked at a location 263'-259' southwest of the existing Jillson 14-22 well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A(I).c.(1).

The JILLSON-EAST RINN 3E-22H-N268 thru JILLSON-EAST RINN 3H-22H-N268 wells were staked at a location 411'-419' southeast of the existing Jillson #6 well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A(I).c.(1).

If this meets with your approval, please sign and date both originals of the letter, keeping one for your files and returning one to the undersigned.

Thank you for your time and consideration in this matter. If you have any questions or comments, please contact the undersigned at (720) 369-0432.

Respectfully,

Encana Oil & Gas (USA) Inc.

Dear Ms. Jillson:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations noted (see attached Well Location Certificate). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A(I) known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A(I).a.(1) which reads:

"The Greater Wattenberg Area ("GWA") is defined to include those lands from and including Townships 2 South to 7 North and Ranges 61 West to 69 West, 6th P.M. In the GWA, operators may utilize the following described surface drilling locations ("GWA windows") to drill, twin, deepen, or recomplate a well ("GWA well") and to commingle any or all of the Cretaceous Age formations from the base of the Dakota Formation to the surface:

- (1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window");

The JILLSON-EAST RINN 3A-22H-M268 thru JILLSON-EAST RINN 3D-22H-M268 and the JILLSON-EAST RINN 3E-22H-N268 thru JILLSON-EAST RINN 3H-22H-N268 wells were staked at a location south of the defined 400' window. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned Wells by waiver of the COGCC Rule 318A(I).a (1).

If this meets with your approval, please sign and date both originals of this letter, keeping one for your files and returning one to the undersigned.

Thank you for your time and consideration in this matter. If you have any questions or comments, please call the undersigned at (720) 369-0432.

Respectfully,

Encana Oil & Gas (USA) Inc.
