Attn: Mr. Matt Lepore, Director

RE: Request to the Director for Exception Location
Proposed Well
Mississippian New Drill
Township 14S, Range 45W, 6th P.M.
Section 11: SESE: 1320' FNL & 375' FWL

Dear Director,

Resource Development Technology, LLC, (RDT) is planning to drill the above referenced well to the Mississippian Formation.

The proposed surface location is approximately 375' from the west lease line, and encroaches on Anadarko's mineral ownership in the W2SE. RDT has obtained seismic data that shows the optimum location for the proposed Well is 375' east of the existing lease line. RDT respectfully requests that the Colorado Oil and Gas Conservation Commission (COGCC) grant an exception location based on this geologic data. As prescribed by the COGCC Rule 318.(c)., RDT has obtained written exception of Rule 318.(a). from the offset Mineral Owner, Anadarko, contained in a waiver. A copy of this waiver is attached for your consideration.

Attached is a diagram of the proposed well location.

Thank you for your attention to this matter. RDT respectfully requests that the COGCC review the enclosed information and approve the requested exception location waiver and Application for Permit to Drill the captioned well.

If you have any questions or concerns, please do not hesitate to contact me at (303) 716-3200 or by email at karlwalterjr@gmail.com.

Sincerely,

Karl Walter
