Description of Well Site and Construction Area

1-3 acre site with access road for drilling of oil and gas well. Farm Ground with wheat stubble. North Fork of Arikaree River is located approximately 949' Southeast of the well pad. The river is dry and does not flow water unless for than 2" of rain falls in a short period of time. A dirt brim will be installed on the South and East side of the well pad to protect this surface water area. Surface Roughening will be used on low side of drill site to reduce speed of runoff, increase infiltration, reduce erosion, trap sediment. Drilling pits closed and reclaimed within 3 months weather permitting. Topsoil will be separated and spread on drill site and disked as final reclamation operation which will be completed within 6 months weather permitting.
