Operator Comments:

Outside of the historical Parkman production area in the Greeley field, the locations of the planned Parkman recomple wells represent new plays. The engineering, geoscience and completions work for the planned Parkman recomple wells represent Noble's competitive advantage. In order to maintain Noble's competitive advantage in the exploration of these new plays for the benefit of all stakeholders, including landowners and the State of Colorado, Noble requests tight hole status for this well location.

No wells have produced or are producing in the Parkman formation within 1 mile of this location.

No

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
