Subject: RE: HF4 unit boundary

The white box is i.d. on McElmo Dome Unit as Tract 1-17 (and maybe part of Tract 1-18) both of which are LEASED to Chevron & based on the fact they are listed on Ex. A, it would appear that they are pooled & unitized within the McElmo Dome Unit, there for the white box IS NOT a unit boundary. Therefore if your measurement to the unit boundary was more than 5280, you are good to go.

Subject: HF4 unit boundary

Rob,
Doing my own unit boundary checking we are >5280' unless the white square below (1335') is not part of the unit – so it might help to explain what portion of the unit that white square is?

Thanks
Paul
