Re: Closure request for remediation project number 7800
Zuege 17-02 API # 05-125-11214
NWNE/4, Sec. 17-T2S-R44W, 6th pm
Yuma County, Colorado

John,

We would like to request closure on the above referenced well. On 05/22/13 we added at least 3 feet of clean fill dirt to the existing hole. We will crimp the area with straw to prevent blowing and reseed in the fall when growth potential is more favorable.

The Fill dirt was from the Fryrear pit located at County Road 59 and N in Yuma County, CO. Fill dirt soil analysis was submitted with Form 27.

Per the submitted analyses we feel no treatment or further sampling is required, but will continue to monitor the location for re-growth and/or erosion and take any necessary measures to promote the reclamation of the affected area.

If you have any questions or require additional information please feel free to contact me.

Sincerely,

Augustus Energy Partners, LLC
