Section 26 Township 2N Range 66W  
Weld, Colorado

Dear Director:

Encana Oil and Gas (USA) Inc. ("Encana") respectfully requests the Director approve an exception to Rule 318A.a. to allow the above named wells to be drilled at the above referenced location. Rule 318A.a. of the Colorado Oil and Gas Conservation Commission's Rules and Regulations requires wells to be drilled/completed in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter section or in the center of any quarter section with the four sides being (800') feet in length. The surface location of Encana's proposed well has been staked outside of the 318A.a. drilling window. The location is being permitted as an exception location.

Encana has obtained written permission from the surface owner for both of these waivers. Should you have any questions, please contact me at 720-876-5586. Thank you for your assistance in this matter.

Sincerely,  
Encana Oil & Gas (USA) Inc.
