C.R.P. = Conservation Reserve
Program

Sirs

I own the land described above but do not own the mineral interests. This land is planted to grass and is in the C.R.P.

I am requesting that if the well is produced as much of the production equipment as possible be placed out of or at the edge of the field and the location cleaned up. Any acreage used for the facility will be taken out of production and not compensated by the C.R.P.

If the well is plugged I am requesting that the location be reclaimed.

I would also like to be notified before any work has begun.

Donald C Harris Testamentary Trust / Angelina C. Harris trustee

Thank You

Angelina C Harris
