Re: Notice of Intent to Conduct Surface Operations
Anschutz 1-30H
NE/4 of Section 30 T4N – R62W
Weld County, Colorado

Dear Mr. Miller:

The Colorado Oil and Gas Conservation Commission (COGCC) has specific guidelines and procedures regarding surface activities. These rules stipulate an operator must give an affected surface owner notice in writing at least thirty (30) days prior to drilling an oil and gas well.

It is Anschutz Exploration Corp. intention to begin operations to drill an oil and gas well on the lands described above. Operator may drill the well thirty (30) days from this date or sooner if your approvals to waive the thirty day notice requirement is given below. It is your responsibility to notify the tenant farmer, if applicable, of this proposed operation.

Enclosed please find the following information:

- * A brochure describing surface owner rights and responsibility
- * the policies for a consultation with (Operator) (COGCC Rule 306)

We are requesting that you sign the waiver below. However, if you require a formal consultation, please contact me at the number shown above to schedule a surface inspection.

If you have any questions concerning Anschutz Exploration Corp. plans, please contact me at (303-299-1219)

Sincerely,
Pam Kalstrom VP Land

I/We hereby waive the notice requirement and hereby authorize (Operator) to begin operations upon receipt of the drilling permits from the Colorado Oil and Gas Conservation Commission.
