Subject: COA for the Form 4 Doc # 400495641

Venessa,

The Sample location 752900 (DWR Permit #229499) established in the NW quarter of section 2 4N 62W is required to have a post drilling sample collected as described in rule 318ae4. Because a post drilling sample is required the following COA will be applied to the Anschutz State 5-62-35-6457BH sundry notice:

The operator must make an attempt to collect a post drilling sample as described in rule 318Ae4 from Facility ID 752900 (DWR permit # 229499). If the well owner denies access for collection of a post drilling sample a Sundry Notice will be required. The Sundry Notice should document the good faith efforts of BBC to collect the sample as described in rule 318Ae4.

Please let me know if you have any questions or concerns regarding the COA for this location.

Thanks,

Arthur
