CORRECTIVE ACTION

Describe immediate response (how stopped, contained and recovered): The mud pump was shut down and repaired. The released drilling mud was removed from the pad surface and incorporated into the drilling process.

Describe any emergency pits constructed: None

How was the extent of contamination determined? Visual observations and field equipment

Further remediation activities proposed (attach separate sheet if needed): Drilling mud was removed from the pad and reincorporated into the drilling process. No additional remediation is planned.

Describe measures taken to prevent problem from reoccurring: Fittings will be inspected prior to being placed into service.
