Kyla,

I have reviewed both of the referenced Form 2A Oil & Gas Location Assessments and have a similar comment for both of them. They are both missing the NRCS Map Unit Description attachments. Now that the federal government shutdown has ended, you should be able to access this information from the US Dept of Agriculture's NRCS website. Below is the list of missing NRCS Map Unit Descriptions. Please send them to me and I will attach them to their respective Form 2As.

TELLURIDE 13-2: 121 Colby silt loam, 3-12 percent slopes

SNOWBIRD 16-15: 209 Wages loam, 2-6 percent slopes
144 Kimst loam, 3-12 percent slopes

If you have any questions, please feel free to contact me. Thank you.
