Justin,

After reviewing your request for exception to rule 609 I think a amendment is necessary. The number of exception should be changed from 2 to 4. Rule 609 requires samples be collected from 4 water sources, so if you cannot collect any samples 4 exception should be requested.

Please confirm the change by responding to this email. Once I have confirmation for the change I make the change and approve the Sundry. Please let me know if you have any questions.

Thanks,

Arthur
