Subject: Waiver to 20 Day Comment Period - Ehmke #1
Importance: High

Good morning Mr. Bauer,

Please find attached our Form 2 permit application to re-enter the Ehmke #1 well and plug. We are plugging this well in an effort to be able to frac our Konig 2-31-11-59 well that is 773' away. This is a Rule 502.b variance request to Rule 305.d and is due to exigent circumstances as provided for in Rule 303.i.(2). We will not be putting this well in production. This is solely being requested due to Carrizo delaying our fracture stimulations of our wells we have drilled.

We are not requesting a signature. A simple response by email for approval will be acceptable by COGCC requirements.

Thank you for your time.

Sincerely,

Cynthia Pinel
