OGLA	OGLA group discussed this location along with the tank battery location <500' to the west. Although this is not an ideal placement of the production facilities due to nearby neighbors to the northeast, it is acceptable. Returned to IN PROCESS.	11/13/2013 8:34:35 AM
OGLA	placed on hold to discuss tank battery location with operator. Can facilities for these 4 wells be consolodated with proposed tank battery <500' to west (doc #400421035)? IF not, facilities should have their own Form 2A as was done for other multi-well pads in this section.	9/8/2013 10:30:34 AM
