Amber,
Please upload this email to:
REM # 8090
Location ID # 335717

Thank you much!

Jessica,
Thanks for the notification. We will consider the new findings as part of the remediation project # 8090.
This email will be uploaded to the database as a note to the remediation project.

Have a great day,
Carlos

Subject: Love Ranch 8 pit closure remediation
To: "Carlos Lujan (Carlos.Lujan@state.co.us)" <Carlos.Lujan@state.co.us>

Hi Carlos,

On 12/3/2013 during pit closure/reclamation activities on the Love Ranch 8 (Location ID 335717, Form 27 DOC # 2147033) what appears to be pit contents mixed with soil was discovered in the fill slope on the NE side of the location. Based on the exposed section the material includes small amounts of liner and bird balls. The material is currently visible in a section ~10-15' long by 1-2' high and does not appear to be consistent throughout the area. XTO Energy proposes to delineate and remediate the material to COGCC Table 910-1 standards. Upon completion of remediation and pit closure a Notice of Completion will be submitted including all associated data associated with the remediation.

Thanks you for your assistance and please touch base with any comments or questions.

Jes
