Mr. James,

The Colorado Oil & Gas Conservation Commission (COGCC) is issuing the attached Notice of Alleged Violation (NOAV) for rule violations at the facility and for noncompliance regarding the skim pit closure at the Forbes #1-14. Specific rule violations and noncompliance issues are detailed on the attached NOAV and inspection documents. Please note that the text in Abatement or Corrective Action section of NOAV Form is truncated and that the full text is in the attached "WesternOperating\_forbes\_1\_14\_NOAV\_200392590\_FullText" document.

An inspection conducted by COGCC on 11/20/13 (document # 670600111) is also attached.

Please call me if you have question regarding the alleged violations or required corrective actions.

Thank you,

—

John Noto, P.G.
