THNAK YOU OF CALLING

I LEFT A MESSAGE FOR Ann. I have looked up her records and did find a complaint in 7/2011 of "greasy water". No test was done at hat tine she was referred to her water treatment prof. and system was treated for, as I recall- Iron related bacteria. I will interview her for signs and concerns and water treatment system when she calls back I found her BLM IID # to be 3699 in my dbase Fac# was as you indicated 707134.

Also when I collect samples Karen usually ordered BART's Hach Iron relate d bacteria and sulfate reducing bacteria. Let me know if you would like those run.

As well as Isotope BG1 if CH4 .1.0 mg/l and BTEX as indicated by field parameters.

Will keep you posted on schedule date for test

Lynn

Subject: Arens water well complaint

Lynn,

Thank you for helping us with sampling Arens well. The complaint number to reference for billing purposes is 20039550.

Thanks,

Arthur
