Dear: John:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned well at a surface location as noted (see attached Well Location Certificate). This well is being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC) Rule 318A(l). known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the County of Weld). Rule 318A(l).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to being twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the wells are proposed to be located in order for the Director to approve the wells locations administratively."

The McConahay 1E-34H-H266 well was staked at locations 535' south/west of the existing McConahay 6-4-34 well.

As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned well by waiver of the COGCC Rule 318A(l).c.(1).

If this meets with your approval, please sign and date both originals of the letter, keeping one for your files and returning one to the undersigned.

Thank you for your time and consideration in this matter. If you have any questions or comments, please contact the undersigned at (303) 774-3999.

Respectfully,

Encana Oil & Gas (USA) Inc.
