Subject: Form 4 Sundry Notice – Cottonwood Creek #4-65-26-27-1H

Dear Mrs. Aldrich:

To aid in the submittal of a Form 4 Sundry Notice, please accept this letter as record of CB&I's attempts to contact landowners in possession of water wells located within ½ mile of the proposed Cottonwood Creek #4-65-26-27-1H location (Location) to meet the requirements for baseline water monitoring as part of the Colorado Oil and Gas Conservation Commission (COGCC) Rule 609. The below is a summary of actions taken to contact landowner within ½ mile of the Location:

- September 24, 2013 – Requests to participate in the baseline groundwater sampling program sent to all available landowners having permitted wells within ½ mile of the Location and selected landowners having permitted wells within 1 mile of the Location via USPS Certified Mail with Return Receipt:
 - COAL CREEK RESERVE PARTNERSHIP; well Permit Numbers 12883, 43732A, and 43732; located, NW NE, 28, 4.0S, 65.0W, Sixth
 - EAST SIDE SUNSET LLC; well Permit No. 148399A; located, NW SW, 22, 4.0S, 65.0W, Sixth
- October 3 and 7, 2013 – USPS Return Receipts received by CB&I from all three landowners, confirmed landowner receipt of baseline water sampling program information and requests to sample.
- As of the date of this letter, no indication of a desire to participate in a baseline water sampling program has been received by CB&I from the landowner having well located within ½ mile of the Location as listed above.
 - The owner for well permit number 275976 was not contacted as there is no evidence of a completed well associated with this permit number.

Due to the lack of responses from the landowners having wells located within ½ mile of the Location, it is recommended that a Form 4 Sundry Notice be prepared for the Location.

To meet the requirements of ConocoPhillips' MOU with Arapahoe County, well permit number 148399A located within 1 mile of the Location was sampled on November 7, 2013.

Sincerely,

Daisie Young, G.I.T.
Geologist, CB&I
