RE: Ma-State # 7 well
T10S, R56W, 6th P.M.
Sec. ~~24~~ NW1/4NW1/4
Lincoln County, Colorado

To Whom It May Concern:

State of Colorado Board of Land Commissioners (State Land Board) is the surface and mineral owner in Sec. 24: All, T10S, R56W, Lincoln County, Colorado where the Ma-State # 7 well is located. Wiepking-Fullerton Energy, L.L.C. (W-F) is the operator of said well.

State Land Board is requesting that W-F spread and or jet the drilling mud on the surface next to the drill site location and not dig a mud pit to help prevent soil erosion due to rolling terrain and sandy soil. In addition this will shorten the time period for revegetation. W-F will disk the ground where the drilling mud is spread within 10 days following completion of drilling operations.

If you have any questions please contact me at the number shown above.

Sincerely)

John Valentine
District Manager
