- November 27, 2013 – USPS Return Receipts received by CB&I from all listed landowners, confirmed landowner receipt of baseline water sampling program information and requests to sample.
- As of the date of this letter, no indication of a desire to participate in a baseline water sampling program has been received by CB&I from the landowners having wells located within ½ mile or 1 mile of the Location.

Due to the lack of responses from the landowners having wells located within ½ mile of the Location, it is recommended that a Form 4 Sundry Notice be prepared for the Location.
