Mr. Frank Linnebur and Mr. Mark Linnebur:

Bonanza Creek Energy, Inc. (Bonanza) intends to drill the above referenced Niobrara Fm. horizontal oil and gas wells, to be located as described above.

The Colorado Oil and Gas Conservation Commission (COGCC) has implemented certain rules which pre-determine the location of oil and gas wells in this area; and to which exemptions may be granted with the Surface Owner's approval.

COGCC Rule 318A.a. defines a "400' Greater Wattenberg Area (GWA) Window" as "A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section." The rule also defines an 800' GWA Window as "a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section." In order drill to horizontal wells with sufficient lateral length in the producible zone; the wellhead surface locations have been staked outside of the associated GWA Window.

COGCC Rule 318A.c. requires that an exception be granted by the Surface Owner for a well permitted to be greater than 50' from an existing well in the same quarter-quarter. In order to drill horizontal wells with sufficient lateral length in the producible zone, and build sufficient production facilities on location, the wells have been staked greater than 50' from existing wells in NWNW Sec. 17-5N-61W.

Bonanza respectfully requests you or your authorized agent complete and sign the attached form; and scan and email the signed waiver to REdelen@bonanzacrk.com. If you prefer, you may also fax it to (720) 279-2331, to the attention of Randy Edelen. Please do not hesitate to call me, at (720) 440-6136, should you have any questions or concerns.

Sincerely,
