RE: Request to the director for 604.b.(1)A Exception  
**State of CO South 1S-66-36 Production Facilities**  
SW SW Section 36, T1S-R66W  
Adams County, Colorado

Attn: Mr. Lepore, Director

Bill Barrett Corporation (BBC) is planning to drill the approved well locations on the State of CO South 1S-66-36 wellpad (Location ID 435515). However, the production facilities for this pad would be located approximately 875' from a building unit.

Under Rule 604.a.(2) (Buffer Zone Setback) no well or production facility shall be located one thousand feet or less from a building unit until the Operator certifies it has complied with Rule 306.e.

BBC hereby requests an exception to the Buffer Zone Setback requirements due to 604.b.(1)A (An existing oil and gas location is within a designated setback location solely as a result of the adoption of Rule 604.a). The production facilities for this pad would be located on an existing production facility site. There will be no new disturbance. This is being requested to maximize reclamation.

Thank you for your attention in this matter. BBC respectfully requests that the COGCC approve the requested exception location.

If you have any questions, please contact me at 303-312-8172.

Sincerely,

A handwritten signature in purple ink that reads 'Venessa Langmacher'.
