Inspector Comment:

This well was inspected as a follow up inspection to an inspection done on 9/8/2012. Limited information was placed on this current inspection as it appears that no remedies were applied to the inspection on Doc # 665400482. All violations listed on that inspection apply today. Pictures taken and attached to that inspection apply today. The only difference is additional weathering and winter killed weeds. There is snow on the ground today that covers up some of the stained soil and junk-trash etc. that is still in place at this time. The signage indicating that Adams County had an involvement in the well has been removed from the wellsite.
